

### 3.2.3.H Blood Cells

## Self Assessment

### Where is your learning at?

Green - I know it all

Orange - I have some idea – study the sections in more detail

Red - I need to start studying this section

	<i>Can you do the following</i>	Green 	Orange 	Red 
1	Give the main differences between red cells and ordinary body cells			
2	Name the chemical in red blood cells that has a high affinity for oxygen			
3	Name two types of white blood cell and give the function of each type			
4	Describe the main properties of white blood cells
